Expert

## Work Experience

### ● Full Stack Web Developer

Freelance Projects – Remote

Built dynamic web applications using React.js, Node.js, Express.js, and MongoDB.

Handled authentication using JWT and user sessions.

### ● Website Designer (HTML, CSS, JS)

Freelancer – Remote

Designed custom websites using only HTML, CSS, and vanilla JavaScript. Focused on clean UI/UX, accessibility, and browser compatibility.

### ● Frontend Developer & Backend Developer

Developed and maintained user-friendly, responsive frontends using HTML, CSS, JavaScript, and React.js.
